What is the Student Achievement Factbook?

The Washington & Jefferson College Student Achievement Factbook is an annual publication that provides up to five years of statistical data and information about student achievement at the college.

What is the purpose of the Student Achievement Factbook?

The Student Achievement Factbook is designed to provide fair, accurate, and complete information regarding student achievement to students, faculty, and staff of W&J College and to the public. Student enrollment, retention, graduation, completion, placement, and employment data can be found in the Student Achievement Factbook.

How are the data collected?

Data are collected from internal sources of W&J College and compiled by the Office of Institutional Effectiveness.

College Mission

The [mission](#) of Washington & Jefferson College is to graduate people of uncommon integrity, competence and maturity who are effective lifelong learners and responsible citizens, and who are prepared to contribute substantially to the world in which they live.

To this end, the College promotes the development of skills, knowledge, personal qualities and a worldview that characterizes a well-educated person. All components of the living and learning environment at W&J are designed and intended to support this mission.

* Listed as a major through the 2018-19 College Catalog.

** Listed as a major through the 2020-21 College Catalog.

Note: Completions are the number of majors completed as students graduate; they are not equivalent to the number of students graduating. If students have multiple majors upon graduation, then the number of completions will be greater than the number of students graduating. Therefore, graduation rates cannot be computed from the number of completions. Completions do not correspond to an incoming cohort.

* This row represents the number of students who applied to either an allopathic or osteopathic medical school or both, and the number of students who were accepted to one or both programs. For example, in 2021-2022, 17 students applied to an allopathic or osteopathic medical school or both, and all were accepted into one or both programs.

** Some students will apply to more than one program. Therefore, the 'Total' row of applicants and accepted may be less than the sum of the columns of applicants and accepted.
